LINEAR  
Door Hardware

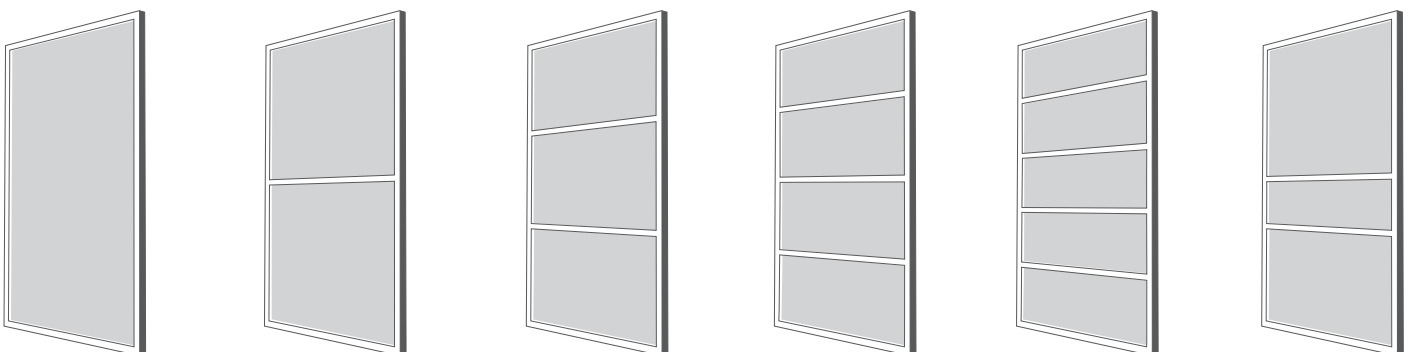

**Produce great looking, versatile & quality sliding doors with Spacepro steel hardware. We have everything you need to make doors you'll be proud to sell.**

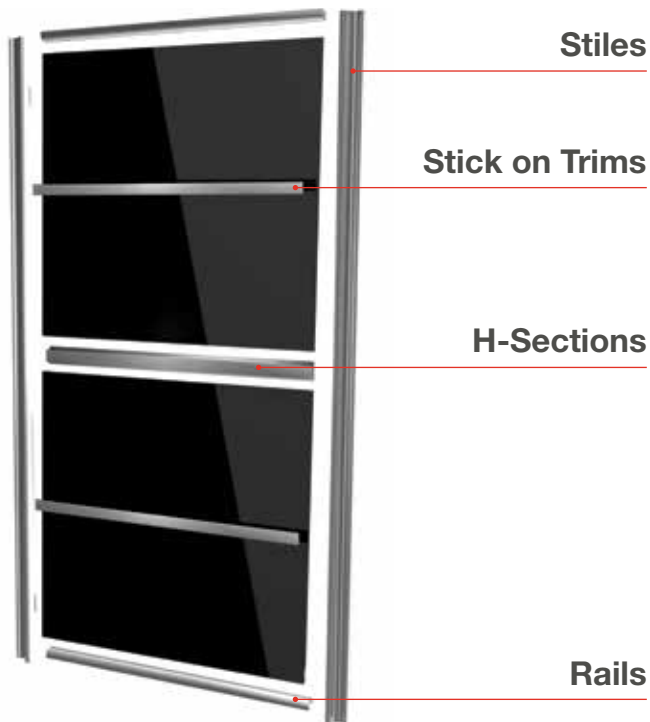

The Classic with a twist, the Linear profile boasts slim asymmetric curves. With a wide choice of block colours or wood effect finishes the Linear door can cater for any home with looks that span from the traditional to the modern.

**Key features:**

- Wide range of unicolour and wood effect frame finishes available
- Easy and quick to assemble
- Improved running gear for the smoothest of sliding actions
- Compatible range of installation accessories available to finish the job

## Door Installation Order

## Technical Information

Calculating doors and overlap widths.

Sliding Door Overlap	26mm
Door Height	Opening height minus 54mm (track & wheel allowance)
Door Width (for sliding doors)	$\frac{\text{Opening width} + (\text{Number of overlaps} \times \text{Overlap length})}{\text{Number of doors}}$
Stile Length	Equivalent to door height
Rails & H-Section Lengths	Finished door width minus 2 x overlap
Panel Height (1 Panel)	Door height minus 2mm
Panel Height (Multi Panel)	Panel height divided by the quantity minus 1mm for each break
Panel Width	Finished door width minus 2mm

Door configurator can be provided on request.

Ask your Spacepro account manager for information about notching tools.
